**Results, Discussion and Conclusion**

This section should explain and summarize the experimental results. You may include tables, figures, or diagrams (if applicable), which should be centered. When comparing results, use markers or symbols to highlight the differences. Table captions should be placed above the table, while figure captions should be placed below the figure.

(Leave a blank line between sections.)

**Acknowledgements**

This project was supported by Science Classroom in University Affiliated School (SCiUS). The funding of SCiUS is provided by Ministry of Higher Education, Science, Research and Innovation. This extended abstract is not for citation.

(Leave a blank line between sections.)

**Declaration**

In this section, you must specify whether AI-assisted tools were used in the preparation of this work. If used, indicate which parts utilized AI assistance. (If AI was not used) you can declare whether “AI-assisted technology is not used in the preparation of this work.” or “This work was created without any contribution from a generative AI.” (If AI was used) you can declare whether “During the preparation of this work, the author(s) used [Name of Tool/ Service] in order to [Reason]. After using this tool/service, the author(s) reviewed and edited the content as needed and take full responsibility for the content of this work.”

Additionally, please declare if this project has been presented or competed in any previous events. “This work has not been previously presented or submitted to any other competition.” or “This work was presented at the [Competition Name], where it received the [Award's Details].”

(Leave a blank line between sections.)

## Details of template setting:

1. Write in English using Times New Roman font, size 10 pt, with 1.5 line spacing and justified alignment. (In cases where references are in Thai, use TH Sarabun New font, size 12 pt.)
2. The document should not exceed 4 pages of A4 paper in portrait orientation, with page margins set as follows: top 1 inch, bottom 1 inch, left 1.2 inches, and right 1 inch.
3. The header should include the 16<sup>th</sup> SCiUS Forum logo followed by the Project ID. (Project ID does not need to be specified yet)
4. The footer should include the page number and the text "For internal use in the 16<sup>th</sup> SCiUS Forum only. Not for citation." For odd pages, align left; for even pages, align right. Use Times New Roman font, size 10 pt.
5. The acknowledgment should state: "This project was supported by Science Classroom in University Affiliated School (SCiUS). The funding of SCiUS is provided by Ministry of Higher Education, Science, Research and Innovation. This extended abstract is not for citation."

**\*\*The disclosure of AI-assisted tool usage, as well as prior participation in other competitions, will not affect the scoring or evaluation by the judging committee.\*\***
